### SafTLite

SafTLite offers a complete line of excellent quality, incredibly durable lighting solutions for industrial and commercial applications. SafTLite's most popular products include their patented Stubby and Stubby II lamps. SafTLite also offers explosion proof lighting options and various leak detection products.

For additional SafTLite details, please visit their website at [www.saftlite.com](http://www.saftlite.com)

### Harvey Industries

Harvey Industries offers one of the most convenient methods available for extracting harmful exhaust fumes and gases from all types of service areas. The carbon spring-operated hose reel is designed for years of trouble free service and can be adapted for use with ALL TYPES of vehicles. It is high heat resistant to 600 degree and meets U.S. Military and commercial specifications as well as United States Air Force requirements for high temperature stability.

Please visit the Harvey website to view the complete line of exhaust removal solutions at [www.harveyexhaust.com](http://www.harveyexhaust.com)

## HVAC

### **Revcor / Eucania**

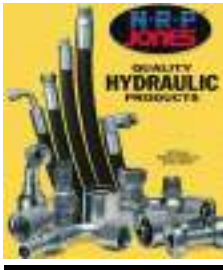

Revcor is a leading US manufacturer of axial fan blades, centrifugal blower wheels, and tangential wheels, has been designing and manufacturing Revolutionary Airflow products since 1946. Their experience helps global customers across diverse industries gain competitive advantage by optimizing the airflow through their systems.

Please visit their website at [www.revcor.com/](http://www.revcor.com/) for more information.

## Fluid Power

### **NRP Jones**

NRP Jones manufacturers a wide variety of hydraulic and industrial hoses & fittings. NRP's hose is used in many industrial and automotive applications. With NRP you can supply all your hose requirements from fuel suction and discharge to high pressure hydraulic hoses. They also offer premium hose for land and offshore oil drilling rigs.

Visit their website at [www.nrpjones.com](http://www.nrpjones.com) for more information.

### **Foster Manufacturing**

Foster has been manufacturing high quality quick detachable couplers for over 60 years. They also offer hose fittings, blow guns and other related accessories for industrial use applications.

Please visit Foster at [www.couplers.com](http://www.couplers.com)

### **Dixon**

Dixon is a leading innovator in the hose coupling industry. Able to supply an extremely wide range of tools, parts and components for various industries. We are pleased to offer the Dixon product line to our distributors.

For more information on Dixon please visit their website at [www.dixonvalve.com](http://www.dixonvalve.com)

## Miscellaneous

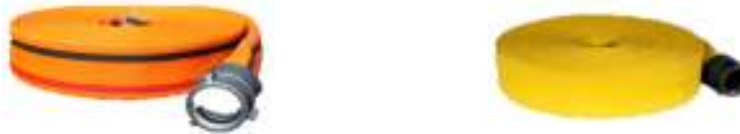

In order to meet our customer's demands for high quality, and product variety, Thompson International is also pleased to offer a wide range of complimentary product lines that fit well within the range of industries and markets that our distributors currently service and supply.

Through established relationships with various U.S. manufacturers, we are able to offer a wide range of products including; Hoses, Nozzles, Camlocks, Filter Regulators, Swivels and more...

### **Hoses**

With assemblies suitable for Multi-Purpose use, Chemical Transfer, Food & Beverage, Refueling, LPG, Steam, Air and Water, and many other applications; we are able to supply just about any project requirement.

We also offer a wide variety of hose options for the Fire Industry, and for Marine applications.

### **Nozzles**

Depending on your application, we offer a wide range of industrial nozzle options to meet your needs. There are various options of Air, Water, Fuel and Diesel Nozzles available.

We also offer nozzles for Fire Control, Potable Water, Aviation Gas, and Jet Gas (underwing).

## Miscellaneous Continued...

### Cam and Groove Couplings

Cam-locks or Cam and Groove Couplings are used in most industries as hose connections to avoid leakage. Thompson International offers a complete line of Utility, Industrial, and Premium Cam and Groove Couplings.

We can also source a wide range of combination nipples, long and short shank couplings, barb fittings, stems, and other components.

### Filter, Regulators, and Lubricators

Five key components to an efficient compressor air system are the Filter, Regulator, Lubricator, Dryer, and Mechanical Drain. Thompson International offers a complete line of these components.

For sizing filters, regulators and lubricators simply confirm your required pipe size, allowable pressure drop, SCFM and Supply pressure.

### Swivels and Breakaways

Swivels are available in various sizes to accommodate many fueling requirements. From service stations and truck stops, to fuel oil delivery terminals, and off road fueling operations.

Thompson International's wide range of swivel options includes Hose, Pump-Cabinet, and Multi-Plane Swivels.

We also offer Breakaways for Gasoline, Diesel Fuel, and High Capacity Fueling applications.

Please contact us for pricing with your application requirements.
