## **"BE" Series - Single Inlet Blower Wheels**

Sizes: 4.53" and 4.72" Diameter  
1" through 3 1/2" Width  
Material: Aluminized Steel or Galvanized Steel  
Applications: Draft inducers, and power venting applications. Small appliances.

## **"BH" Series - Single Inlet Blower Wheels**

Sizes: 4" through 5 1/8" Diameter  
1" through 3 1/2" Width  
Materials: Galvanized Steel or Aluminum  
Applications: Draft inducers, and power venting applications. Small appliances.

## **"B" Series - Single Inlet Blower Wheels**

Sizes: 3 27/32" to 8" Diameter  
Widths from 1" up  
Materials: Galvanized Steel or Aluminum  
Applications: Heating, ventilation and air conditioning.

## **"BC" Series - Single Inlet Blower Wheels**

Sizes: 8 1/2" through 11 5/8" Diameter  
Widths from 1" up  
Materials: Galvanized Steel or Aluminum  
Applications: Heating, ventilation, and air conditioning.

## **"C" Series - Double Inlet Blower Wheels**

Sizes: 3 27/32" through 8" Diameters  
2" through 8" Width  
Materials: Galvanized Steel or Aluminum  
Applications: Commercial air conditioners, fan coil units, furnaces, computers, convectors, and other appliances.

### **"FC" Series - Double Inlet Blower Wheels**

Sizes: 8 1/2" through 12 5/8" Diameter  
4" through 12 1/2" Width  
Materials: Galvanized Steel or Aluminum  
Applications: Commercial air conditioners, fan coil units, furnaces, and other appliances.

### **"K" Series Blower Wheels**

Sizes: 2 9/16" Diameter only  
4" through 13" Width  
Materials: Galvanized and Aluminum  
Applications: Electronic cooling, computers, microwave ovens, copying machines, small electrical heaters, and fire-place blowers.

### **"Q" Series - Single Inlet Blower Wheels**

Sizes: 2 1/2" through 6 5/16" Diameter  
1 1/32" up to 4" width  
Materials: Galvanized or Aluminum  
Applications: Bath and kitchen exhausts, oil burners, electronic equipment, cooling blowers, hair and hand dryers, and air conditioners.

### **"Q" Series - Double Inlet Blower Wheels**

Sizes: 2 1/2" through 6 5/16" Diameter  
1 1/32" up to 4" width  
Materials: Galvanized or Aluminum  
Applications: Bath and kitchen exhausts, oil burners, electronic equipment, cooling blowers, hair and hand dryers, and air conditioners.

### **"R" Series - Industrial Blower Wheels**

Sizes: 5 1/16" through 12 5/8" Diameter  
1" through 6" width  
Materials: Steel material with a black epoxy power coat finish.  
Applications: Air conditioning for commercial transportation, generators, industrial ovens, furnaces, oil burners, and other units where rugged construction is needed.

### **"T" Series Fan Blades**

Sizes: 10" through 26" Diameter  
Blades: 2, 3 and 4 Blade Design  
Materials: Aluminum blades. Galvalume Spider with Zinc plated hub.  
Applications: Unitary air conditioners, heat pumps, unit heaters, ventilators, exhaust units.

### **"G" Series Fan Blades**

Sizes: 8" through 30" Diameter  
Blades: 3 and 4 Blade Design  
Materials: Aluminum Blades. Galvalume Spider with Zinc plated hub.  
Applications: Air conditioning condensers, power roof ventilators, heat pumps, heat exchangers.

### **"OA" Series Fan Blades**

Sizes: 18" through 22" Diameter  
Blades: 2, 3 and 4 Blade Design  
Material: Aluminum or Galvalume blades. Galvalume Spider with Zinc plated hub.  
Applications: Air conditioning condensers, power roof ventilators, heat pumps, heat exchangers, unit heaters, commercial and industrial equipment.

### **"UNT" Series Fan Blades**

Sizes: 18" through 22" Diameter  
Blades: 2 and 3 Blade Design  
Material: Galvalume Blades. Galvalume Spider with Zinc plated hub.  
Applications: Air conditioning condensers, power roof ventilators, unit heaters. Commercial and industrial equipment.

### **"UT" Series Fan Blades**

- Sizes: 18" through 22" Diameter  
Blades: 2 and 3 Blade Design  
Material: Galvalume Blades. Galvalume Spider with Zinc plated hub.  
Applications: Air cooling condensers, power roof ventilators, unit heaters, commercial and industrial equipment.

### **"5" Wing Series Fan Blades**

- Sizes: 16" through 30" Diameter  
Blades: 5 Wing Design  
Material: Aluminum blades. Galvalume Spider with Zinc plated hub  
Applications: Unitary air conditioners, heat pumps, unit heaters, ventilators, exhaust units.

### **"O" Series Fan Blades**

- Sizes: 6" through 10" Diameter  
Blades: 5 Blade Design  
Material: Aluminum Blades. Zinc plated steel hubs.  
Applications: Air conditioners, exhaust fans, range hoods, unit heaters.

### **"K-KA" Series Fan Blades**

- Sizes: 24" through 36" Diameter  
Blades: 3 and 4 Blade Design  
Material: Aluminum Blades. Galvalume Spider with Zinc plated hub.  
Applications: Whole house ventilation, central condenser, heat pumps, all other unitary requirements.

### **"KH" Series Fan Blades**

- Sizes: 24" through 48" Diameter  
Blades: 4 and 6 Blade Design  
Material: Galvanized Blades.  
Applications: Cooling towers, tube and vane axial. Refrigeration and all purpose ventilating.
